

Department of Family Social Science

ADDITIONAL LICENSURE GUIDE SHEET

Parent and Family Education

This document is an **unofficial program guide** to assist prospective and current students in this program. This program guide is used to provide clarity regarding course requirements, including clinical field experiences and student teaching, approved and required for teacher licensure in Minnesota. Because the teacher licensure requirements are subject to change, students should **utilize APAS onestop.umn.edu/academics/apas to accurately track progress in the licensure program** and work with their faculty and department advisors to complete all internal and external requirements for licensure recommendation. You have four years to complete the requirements listed on your guide sheet and apply for the license. Any courses more than four years old may need to be repeated. When all requirements have been completed, visit cehd.umn.edu/teaching/additional/ for instructions on applying for your state license.

The completed review is based on our assessment of your academic coursework. All applicants must meet minimum College of Education and Human Development requirements for GPA. If you believe we have not properly credited you for courses previously taken, you may petition. You will need to provide a detailed course description or syllabi in support of the petitioned request. The official petition form can be found here: onestop.umn.edu/sites/onestop.umn.edu/files/forms/otr172_0.pdf.

	FSOS 5945	Teaching and Learning in Parent Education – Online			3		
	FSOS 5946	Assessment and Evaluation in Parent Education – Online			3		

CLINICAL EXPERIENCE REQUIREMENTS (3 CREDIT INIMUM)

PELSB has resolved initial licensure candidates for Parent and Family Education to be supervised for 100 field experience hours instead of student teaching

Lack	Experience	Comments	Completed
	FSOS 5949 – Student Teaching in Parent Education (minimum 100 clinical experience hours*)		
*Clinical experience requires a minimum of 3 observations by the supervisor, 3 observations by the cooperating teacher, and 2 triad meetings			

Diverse Learners

A teacher licensed in Minnesota must have documented experience working with children from diverse backgrounds and children on IEP plans. Previous teaching or clinical experience (student teaching, field experience, etc) can fulfill this requirement. Candidates who wish to use other experiences to fulfill this requirement should meet with program faculty to discuss their experience.
